

## VERMONT NEWS.

**State Expenses.**  
For 31 months beginning December 1 of the present year it will cost the citizens of Vermont \$1,682,171 to run the commonwealth. By fixing the appropriation year and fiscal year to begin together on July 1 it has been made necessary to make the appropriations for the fiscal year of 24 months. The appropriation year began December 1 and the fiscal year July 1. The appropriations therefore are larger, but no increases are granted any institutions except that provision is made for paying an accumulated shortage of \$375 in running the insane asylum, \$200 in house of correction, and \$5000 in the industrial school. The committee on ways and means made every institution show up its bills so as to start off with a clean slate.

The appropriations in lump sum for the 31 months are: Debitors for ad-journed session, \$30,000; session of 1906 \$65,000; Vermont hospital for the insane, \$450,831; state prison, \$83,500; house of correction, \$25,660; state industrial school, \$65,180; interest on bonds, \$60,000; payments of auditor's warrants, \$875,000; total, \$1,682,000.

Lawton, of Brattleboro; Dr. George S. Foster of Putney; Dr. P. P. White of Williamsville.

## Sentences Shortened.

United States District Attorney Martin states that, in view of Judge Wheeler's ruling allowing John C. Farrar, of Waterbury, to take advantage of the recent act of Congress giving federal prisoners eight days a month commutation of sentence for good behavior, which is three days a month more than the state law allows, he shall direct that the act be applied to the sentence of other federal prisoners in Vermont. This will shorten the sentences of M. A. McClure, of Rutland; J. W. Ketchum and D. H. Lewis, of Vergennes, convicted of bank wrecking.

Two cases of poisoning at Montpelier are laid by some to the dose of "candy suckers", the candy that is sold on the end of sticks. Two children who ate that kind of candy that they bought at the fair in the armory were taken violently ill with nausea and the symptoms indicate it is thought, that the candy poisoned them. The candy was of a pink color. One of the two children came down with scarlet fever, but it is thought that the poisoning greatly aggravated the onset of the fever.

The blaze assumed such proportions that aid was summoned from St. Albans, but the chemical engine from that city arrived too late to render assistance.
